PROFILE

Enthusiastic Software Engineering undergraduate at SLIIT with practical experience in full-stack and Android application development. Skilled in Java, Python, React.js, Node.js, Firebase, MongoDB, and SQL, with a strong interest in building user-centric and scalable applications. A fast learner with solid problem-solving and teamwork skills, eager to gain industry exposure and contribute to real-world software projects.

EDUCATION

○ SLITT - Faculty of Computing (Undergraduate)

- BSc (Hons) in Information Technology – Specializing in Software Engineering (2023 - Present)

○ Advanced Level - Physical Science

- Janadhipathi Balika Vidyalaya ,Galle (2019 - 2021)

SKILLS

• Full Stack Development

• javaScript,PHP

• React & Node.js

• Firebase Integration

• Database Management

• Object-Oriented Programming

• Version Control (Git/GitHub)

• UI/UX Design

• Agile Methodologies

• Data Structures & Algorithms

• Android App Development

PROJECTS

○ My Budget Pal | Personal Finance Manager

- A full-stack web application designed to calculate, track, and manage employee salaries.
- Technologies Used : MERN Stack (MongoDB, Express.js, React.js, Node.js)

○ Uni Hub | Online Customer Care System for Student

- Developed a dedicated online portal for university students to submit queries and receive support from the administration, built on the Java EE stack.
- Technologies Used : JSP, Servlets, MySQL.

○ Medcore | Diet Plan & Health Checkup System

- A web-based platform developed in my first year to allow users to create customized diet plans and schedule health checkups.
- Technologies Used: HTML, CSS, JavaScript, PHP (Back-End), Java, MySQL.

○ WellCore | Personal Wellness Mobile Application

- Developed an Android application for habit tracking, mood monitoring, and hydration reminders with integrated widgets and data visualization.
- Technologies Used : Android Studio (Java), MPAndroidChart, AlarmManager

○ EverGreen | Tea Collection Mobile App

- Designed and built an Android application to digitalize and streamline the tea leaf collection process between farmers and factories.
- Technologies Used: Android Studio (Java/Kotlin).

SOFT SKILLS

- Strong verbal and written communication
- Teamwork and collaboration
- Problem-solving
- Good communication
- Time Management

CERTIFICATION

- J'PuraXtreme Edition 2.0 | IEEE Computer Society USJ | Oct 2025
- SLIITXtreme 4.0 Finalists | SLIIT | Oct 2025
- Web Design for Beginners | University of Moratuwa | Issued May 2024
- Python for Beginners University of Moratuwa | Issued Apr 2023
- Introduction to C++SoloLearn | Issued Aug 2024
- Introduction to HTMLSoloLearn | Issued Aug 2024
- Introduction to CSoloLearn | Issued Jul 2024
